GATEKEEPER HALBERD

Proximity-Based Wireless Key for Hands-Free Computer Access

Access computers and web credentials wirelessly using the Halberd BLE token.

GateKeeper Halberd is the wireless key for your computer and websites. With proprietary access control software, GateKeeper locks and unlocks computers and websites in the workplace based on the user's proximity.

HALBERD WIRELESS KEY

GateKeeper Halberd provides users a hassle-free login experience by eliminating the need to type passwords, without compromising convenience and productivity.

- ✔ Eliminates manual logins forever
- ✔ Proximity-based lock and unlock functionality
- ✔ Separate hardware key, independent of phone/internet
- ✔ Does not require physical contact with computer
- ✔ Lightweight and water/crush resistant

REDUCE RISK BY AUTOMATING COMPLIANCE

GateKeeper Halberd ensures that users follow security best practices and adhere to compliance standards. This reduces the risk of sensitive information being exposed and organizations being subjected to compliance violation penalties.

- ✔ Computer locks automatically when user walks away
- ✔ Continuous 2-factor authentication
- ✔ Serves as unique identifier for individual users in shared credential environments
- ✔ No user information stored on the Halberd
- ✔ Secure workstation when working remotely

TECHNICAL SPECIFICATIONS

- ✔ Bluetooth Low Energy (BLE) technology
- ✔ Replaceable CR2450 battery with 6-month battery life
- ✔ Water resistant
- ✔ Adjustable range from inches to 30 feet

PATENTED TECHNOLOGY

GateKeeper uses patented technology for wireless access management. Using real-time authentication (as opposed to traditional one-time), the GateKeeper constantly verifies.

Utility Patent Number: 9,449,165. System and Method for Wireless Proximity-Based Access to a Computing Device.

Carry your Halberd with you to get seamless access to all your computers and websites. Secure all your workstations and eliminate the risk of internal threats and data breaches.

CUSTOMIZE LOCK/UNLOCK RANGE
Auto-unlock from inches to 30 feet
SET RANGE

MULTIPLE CREDENTIALS PER DEVICE
Unique identifier for each user on shared computer

2-FACTOR AUTHENTICATION
Optional PIN for maximum security

Halberd locks your computer when you leave - unlocks when you return. Halberd supports multiple users per computer, and easy 2-factor authentication with a PIN.
